NOTES:

- 1) The rack is shown with eleven units fitted and ten unused positions.
- 2) Connector assemblies shown in the unused positions are normally only fitted when that position is expected to be occupied. Unused positions always have a blanking plate fitted to maintain RFI integrity.
- 3) 180mm should be left at the front of the rack to allow for unit withdrawal.
- 4) Dimensions in brackets refer to the increase in length for a type 'K' enclosure.

DIMENSIONS in mm
TOLERANCES ±
Nominal 0.4 mm
Decimal 0.15 mm
Unless shown otherwise
